

One Bad Pig, Kingdom Come

When war is finally ended
When death has breathed its last
When the Lion Lies with the Lamb
When all the old is passed
When no man rules a nation
When no man rules his soul
Then each man will bow before
Our God who is in control

The final hours coming down
Listen to the sound
Its very clear the time is near
The power of God is here

Chorus:
There will be a Kingdom come
The grip of darkness is undone
Governments will tumble down
Christ alone will wear the crown

If youre waiting for the day
Let me bend your ear
Live for Him on this day
Gods Kingdoms very near

The final hours coming down
Listen to the sound
Its very clear the time is near
The power of God is here

There will be a Kingdom come
The grip of darkness is undone
Governments will tumble down
Christ alone will wear the crown

Well are you hearing it?
Are you believing it?
Well are you living it?

The final hours coming down
Listen to the sound
Its very clear the time is near
The power of God is here

There will be a Kingdom come
The grip of darkness is undone
Governments will tumble down
Christ alone will wear the crown

Kingdome come - The power of man will come undone
Kingdom come - We will see the Holy One

Well are you hearing it?
Are you believing it?
Lets be living it
Do you believe it?
