

# One Cool Guy, Skank Away

it's about time to clock out  
call my friends to see what's going on  
because tonight we're gonna have some fun  
don't need no drugs and no beer  
no alcohol to have a ball  
tie on your shoes tight  
tonight and stop and skank with me

as the horns start to blare, you dance around like you just don't care  
you don't need money to dance with me, so stop, and skank away  
every guy grab a girl, everyone all around the world  
it don't matter who she be, stop and skank with me

just finished up my 9 to 5  
to the show we go to kick it live  
no drugs or alcohol will be supplied  
we got the power cause we're unified  
the lights get real low as we prepare to go  
all the rude boys pack the club to see  
everybody come and skank with me
