One Direction, Loved You First

Zayn:
Girl it should be me
Driving to your house
Knocking on your door
And kissing you on the mouth
Liam:
Pulling on your hair
Dancing in the dark
Cos I was the only one
Who loved you from the start

Harry:
But now when I see you with him
Tears my world apart

Because
Chorus:
I?ve been waiting
All this time to finally say it
But now I see your heart?s been taken
And nothing could be worst
Baby, I loved you first.
Tight my chances
Couldn?t be when he is standing
That?s what hurts the most,
Girl, I came so close
But now you?ll never know
Baby, I loved you first

Louis:
Girl it should be me
Calling on your phone
Saying you?re the one
And that I?d never let you go

Harry:
I never understood
What love is really like
Falling from the first time
Looking in your eyes

Liam:
But now when I see you with him
My whole world falls apart

Because
Chorus:
I?ve been waiting
All this time to finally say it
But now I see your heart?s been taken
And nothing could be worst
Baby, I loved you first.
Tight my chances
Couldn't be when he is standing
That's what hurts the most
Girl, I came so close
But now you'll never know
Baby, I loved you first

Zayn:
First touch
The first kiss
First girl who made me feel like this
Oh, pray

It?s killing me
I loved you first, why can?t you see?

Niall:
I?ve been waiting all this time to finally say it
But now I see your heart?s been taken
And nothing could be worst
Baby, I loved you first.

Tight my chances
Couldn't be when he is standing
That's what hurts the most
Girl, I came so close
But now you'll never know
Baby, I loved you first
