

One Fine Day, Eat your lies

so you have some news from the front
you now exactly what they want
serve in digestible bits
put it just wherever it fits
celebrities and a know-it-all
law and order and a rise and fall
a little love for the loving
a little pity for the suffering
all full high resolution
all right now

Refren:

another story for the lame
another well-designed fairytale
let them eat your lies
and don't you care about the shame
another anyone else to blame
let them eat your lies
in a broadcast we going down
set the stage for the final round
they demand another despair
any braek down any repair
celebreties and a knoww it all
law and order and a rise and fall
a little love loving
a little pity for the suffering
all full high resolution
all right now
Refren
