

One Fine Day, Game Over

do you really wanna quit? come on!

I'm sick of all those crazy heads
deciding 'bout the warfare
but don't dare
to imagine what it takes
to fight against another
scared father

I carry on
believing peace must become
number one

I'm not the weak part of your scenery
before I kill in your name I'll break free

it's not a game you easily quit
you can't just start all over
game over
every level of my life I always state
what my heart tells me

and I carry on
believing peace must become
number one

I'm not the weak part of your scenery
before I kill in your name I'll break free

are we all game over or just blind

I'm not the weak part of your scenery
before I kill in your name I'll break free
