

One Fine Day, Give It All

here we are to call again
for these things in life
long forgotten and banned
will you raise your hands and scream with me
to make all the small things in life worth to sing

start to believe in
it's up to you, pick a living
start to believe in
your little wonder

and the time will come
we never surrender
and won't give in
let's give it all for one
and make it a difference
just get it done

a brand new day, the same old game
you know how to play but still lose it again
just break free, not go insane
hope you get clear of the anger and pain

start to believe in
it's up to you, pick a living
start to believe in
your little wonder

and the time will come
we never surrender
and won't give in
let's give it all for one
and make it a difference
just get it done
