

One More Time, I'll Show You Wonders

Close your eyes baby the tides are turning
Now's the time baby to come home
Here we are together, you and I
By the windy seaside, just about to reach the sky
We shall escape the crowded streets
We can go on forever
I'll cover you from sticks and stones
From rain and stormy weather
Let me walk you to the sunshine
Through the light and through the sound of thunder
I'll Show You Wonders
I can hear the world is calling
And the shining starlight will surround us
I'll Show You Wonders
Touch the earth baby
Look across the oceans
All the landscapes we call our home
By the wild orizons we can stay
Let the arctic fire be the light on our way
We will return on Easter time
To our familiar places
To childhood dreams, the source of youth
And well known friendly faces
Let me walk you to the sunshine... a.s.o.
The midnight sun shines down on you
This time it's here forever
No time for fears, the night is gone
This time we stay
Let me walk you to the sunshine... a.s.o.
