

One Night Only, He's There

They started a fire, started a fire
To change those tears to smiles.
I'll give you something which isn't that much
But I'm sure somehow we'll be in touch

They started a fire hoping to fight
Night time, night time.
Look at the stars shining so bright,
And he's there.
Ooohh, ooohh...

I'm reading your mind.
Yes, I'm reading your mind. [x5]
So go ahead, well baby just smile.

Here is my thing, it isn't that much,
But I'm sure somehow we'll be in touch.
We love you so much.
Ooohh...

Started a fire hoping to fight
Night time, night time.
Look at the stars shining so bright,
Yes, he's there.
Ooohh, ooohh...

Started a fire hoping to fight
Night time, night time.
Look at the stars shining so bright,
Yes, he's there.
Ooohh, ooohh...
