

# One Side Zero, Sleep Through This

Listen to a run away  
We'll be back again  
Seems like he's always been  
The same  
Too long

But, I'll never run  
So far away, Kid  
And You've never seen  
The way I live

Tell me I've always been  
In too deep  
Following everything  
the way  
It seems

But I'll never run  
So far away, Kid  
And you've never seen  
The way I live

And I'll be around (x3)  
Some day I'll be around

Tell me I've always been  
In too deep  
Followed every thought  
The way It seems

So far away  
I never wondered  
You could just walk away  
from me now.

I'll be around  
I'll be around Kid.  
I'll be around someday.  
I'll be around.  
I'll be around (Take your place)  
I'll be around (Son I've changed)  
I'll be around (Follow you)  
I'll be around (Believe in you)

So far away  
I've never wondered how  
You could just walk away  
From me, no

Listen to a run away  
We'll be back again  
Seems like he's always been the same  
Too long

Too long (x3)
