

One True Voice, Sacred Trust

I meant to fight it to the finish but you made me forget
And though it's possible I'm dreaming, don't wake me yet
You know I love you
I can't see the day for night

You know I twist around and turn around and then I give in
You end up in control of me it's really a sin
I don't know what you're doing to me
But I know it's a crime

And baby I can't last another night
And every moment is eternity
And from the depth of my soul
Can't let another day go by

I follow my heart right up to the end
As far as the eye can see
I'm faithful and true and living up to
Your sacred trust in me
I'll never give out to somebody else
I know where my arms should be
I'm faithful and true and making it through
Your sacred trust in me
Your sacred trust in me

You take me and you break me and you do what you please
I stumble and I tremble and I'm weak at the knees
The vision that lies before me is my reality

I tell you I can't wait another night
For every secret that your soul reveals
And you and I may get to know
That it's real, that it's real

I follow my heart that leads me to you
I know where my love should be (girl I'm talking to you)
And you can be sure I'm doing it for
Your sacred trust in me
I'll never give out to somebody else
There's nowhere my heart should be (Girl I'm calling to you)
I'm faithful and true and living up to
Your sacred trust in me
Your sacred trust in me
(Girl i'm talking to you)

I follow my heart right up to the end
As far as the eye can see
I'm faithful and true and living up to
Your sacred trust in me
I'll never give out to somebody else
I know where my arms should be
I'm faithful and true and making it through
Your sacred trust in me
Your sacred trust

I follow my heart that leads me to you
I know where my love should be (You know I'm talking to you)
And you can be sure I'm doing it for
Your sacred trust in me
I'll never give out to somebody else
There's nowhere my heart should be (girl I'm calling to you)
I'm faithful and true and living up to
Your sacred trust in me
Your sacred trust
