

One Vo1ce, All That 2 Me

It only took one look at your face
One second to know you are the one
I'd be with night and day
Only one moment to know you'd be all
That matters to me
It only took one look from your eyes
They sparkled just like the stars above
You brightened up my life
In just one minute you captured my heart
Exclusively, forever you and me

PREHOOK:

As sure as the birds
Fly over the mountains
And sure as the fish
That live in the deep blue sea
I just gotta tell you that you're all that to me

HOOK:

Like roses blooming in the springtime
Like walking in the summer rain
Like cuddling in front of a fireplace
When winter comes back again
Like the sound of the waves in the ocean
Washing up on the beach
I just wanna tell you that you're all that to me

It only took one touch of your lips
One kiss and you took my breath away
To you my love I give
In a blink of time I had no one at all
Now you're all that matters to me

PREHOOK

HOOK 2x

You mean so much to me
I just wanna tell you that you're all that to me
