

One Vo1ce, Thru It All

Oooooh ooh ooh ooh oooooh ooh,

I used to think that lonely was what I'd always be
I used to lie awake at night afraid of facing my fear
But I found my strength, the very day that I found you
My guiding light, just like a fairy tale come true

-Bridge-

My self-esteem was low, but just like superman
You took me by the hand made me understand
Showed me happiness was never too far - thru it all

You've been at my back - thru it all
You're the reason I stand so tall
You've always been there to catch my fall
You've been at my back

You've been my boo, my best friend, and my confidant
When I'm sad and blue you're the only one that I want
And you've got a way with words that makes everything okay
You're poetry in motion you brighten up my night and day

-Bridge-

You said don't be afraid and to never doubt myself
And now that I found you I don't want no one else
Won't you take my hand let's reach for the stars - thru it all

(my baby, my baby)
You've been at my back - thru it all
(you've been right here with me)
You're the reason I stand so tall
(my reason, my reason)
You've always been there to catch my fall
(Oh you)
You've been at my back - thru it all yeah

-Bridge-

You said don't be afraid and just like superman
You took me by the hand made me understand
Showed me you would be there, when I call
(you'd be there when I call you) - thru, thru it all

(yeah, baby, baby, baby,)
You've been at my back - thru it all
(you've been right here with me)
You're the reason I stand so tall
(baby, baby, baby,)
You've always been there to catch my fall
(you've been right there with me)
You've been at my back - thru it all - oooooh

You've been at my back - thru it all
(oh through it all)
You're the reason I stand so tall
You've always been there to catch my fall
You've been at my back - thru it all
