

Oneiroid Psychosis, Succubi

Succubi

In darkest night
In cold moonlight
While I'm asleep
They visit
me

Hypnotized by dreams of sin
Darkness like fingers
Carress my
skin

Their kisses
drain away my life
My blood leaps out
Into
the night

Of usual need for this ecstasy
They give me pleasure
And
take my seed

Hypnotized by dreams of sin
Darkness like
fingers
Carress my skin

Succubi
