

OneRepublic, Rescue Me

would you rescue me
would you get my back
would you take my call when I start to crack
would you rescue me
would you rescue me

would you rescue me when I'm by myself
when I need your love
if I need your help
would you rescue me
would you rescue me

we don't talk much not anymore
broken bottles and slamming doors
but we still care about each other
say we care about each other

I know life took us far away
but I still dream about the good old days
when we took care of each other
we were living for each other

but I start wonder, wonder
if I'm slipping under, under

would you rescue me when I'm by myself
when I need your love
if I need your help
would you rescue me
would you rescue me

would you rescue me
would you get my back
would you take my call when I start to crack
would you rescue me
would you rescue me

would you rescue me when I'm by myself
when I need your love
if I need your help
would you rescue me
would you rescue me

yes, I miss all the times we had
can't forget what you can't get back
and you can't find it in another
man, time it ain't your lover

I don't care what you thought before
I'll be there any time you call
don't you ever call another
no need to call another

and I start wonder, wonder
I'm slipping under, under

would you rescue me
would you get my back
would you take my call when I start to crack
would you rescue me
would you rescue me

would you rescue me when I'm by myself
when I need your love

if I need your help
would you rescue me
would you rescue me

would you rescue me
would you get my back
would you take my call when I start to crack
would you rescue me
would you rescue me

would you rescue me when I'm by myself
when I need your love
if I need your help
would you rescue me
would you rescue me
