

Onesidezero, Sleep Through This

Listen to a run away
We'll be back again
Seems like he's always been
The same
Too long

But, I'll never run
So far away, Kid
And You've never seen
The way I live

Tell me I've always been
In too deep
Following everything
The way
It seems

But I'll never run
So far away, Kid
And you've never seen
The way I live

And I'll be around (x3)
Some day I'll be around

Tell me I've always been
In too deep
Followed every thought
The way It seems

So far away
I never wondered
You could just walk away
From me now

I'll be around
I'll be around Kid
I'll be around someday
I'll be around
I'll be around (Take your place)
I'll be around (Son I've changed)
I'll be around (Follow you)
I'll be around (Believe in you)

So far away
I've never wondered how
You could just walk away
From me, no

Listen to a run away
We'll be back again
Seems like he's always been the same
Too long

Too long (x3)
