Onesidezero, Sleep Through This

Listen to a run away We'll be back again Seems like he's always been The same Too long

But, I'll never run So far away, Kid And You've never seen The way I live

Tell me I've always been In too deep Following everything The way It seems

But I'll never run So far away, Kid And you've never seen The way I live

And I'll be around (x3) Some day I'll be around

Tell me I've always been In too deep Followed every thought The way It seems

So far away I never wondered You could just walk away From me now

I'll be around
I'll be around Kid
I'll be around someday
I'll be around
I'll be around (Take your place)
I'll be around (Son I've changed)
I'll be around (Follow you)
I'll be around (Believe in you)

So far away I've never wondered how You could just walk away From me, no

Listen to a run away We'll be back again Seems like he's always been the same Too long

Too long (x3)
