## Oomph!, Nothing Is Real

Make me weep until I'm blind Let me sleep - My teeth wont grind Take my breath until I feel Beat my chest - I'm broken

Burn my world - You turn the wheel My world - Until I feel My world - Dont try to heal My world - Nothing is real

Nothing is real - Nothing is real Nothing is real - Nothing is real

Let me drink until I find Youve always been on my mind Cut my skin until I feel Everything is broken

Burn my world - You turn the wheel My world - Until I feel My world - Don't try to heal My world - Nothing is real

Burn my world - You turn the wheel My world - Until I feel Don't try to heal my world
