

# Oomph!, Turn The Knife

I'm sinking deeper in the black of this hole  
I can't remember if there once was my soul  
I wanna know if i'm still able to feel  
and this why you got to give me the steel

you turn the knife I come alive  
come on now gimme the knife  
come on now get me alive

so whet the blade and get it under my skin  
I hope you cut away the sore of my sin  
I can't believe I want you holding me tight  
now that the steel is coming one with my side

always wanted to believe in your love  
sometimes I thought that you were sent from above  
and now I know you've got the power to heal  
and this is why you got to give me the steel
