

# Operation Ivy, Vulnerability

I saw this guy go down  
Wasn't time for fear  
Before his body hit the ground.

(Chorus)

Our vulnerability is all our insensitivity  
Car that hit him pull to a stop.

Driver hid the bottles  
He anticipated cops.

(Chorus)

Crowd assembled to take a look at death.  
Shattered skull fragile body  
Blacktop running red.

(Chorus)

People looked bored  
Like expecting more  
People looked bored like expecting more

(Chorus)

And Sympathy is only Friendships where you know  
And mabe we dont know who we are anymore  
And its another spectacle

Its respectable

Take it lightly like another TV show

So desensitized

So dehumanized

We stop to think when you got no place to go

Were Drowning

Were Drowning

(Chours)

Were Drowning

Were Drowning

(Chours)

And its gonna be the death of us just you wait and see
