

# Ophelie Winter, After You

That girl's been talkin' bout U  
I overhead what she says  
I know every word was untrue  
Especially about your style in bed

I'm so glad U're finished with her  
She doesn't say nothin' good, no, no !  
I'm so glad I'm gettin' your love  
I kept on prayin' I would

After U  
There ain't nothin' new  
No other guy could satisfy me like the way U do  
After U  
I'm forever true  
I'll always stay & never stray  
I wanna play it your way

It makes me shiver with pleasure  
To feel your lips on mine  
Your touch is soft as a feather  
U do it everytime

Feels so good just bein' with U  
I wanna tell all my friends  
Feels so good that U are my man  
I never want this to end

After U  
There ain't nothin' new  
No other guy could satisfy me like the way U do  
After U  
I'm forever true  
I'll always stay & never stray  
I wanna play it your way

Your way is slow & smooth  
U make me feel like a woman  
I wanna play with U  
I'd love to feel like a woman

After U  
There ain't nothin' new  
No other guy could satisfy me like the way U do  
After U  
I'm forever true  
I'll always stay & never stray  
I wanna play it your way
