

# Ophelie Winter, Let The River Flow

You know the reason why  
The stars reflexioned dies  
On frozen lakes  
They fly a million nights & fade away  
Why don't you hold me baby  
Just like I do

Let the river flow  
From the mountain high  
You'll never know how long it take  
Let's refill the source  
And the rain will fall  
We'll never know how long it takes, yeah

This wind is blowing wild  
We're all getting insane  
How long it takes  
Before we realize  
Love was driftin' away in the haze  
Why don't you love me baby  
Just like I do

Let the river flow  
From the mountain high  
You'll never know how long it take  
Let's refill the source  
And the rain will fall  
We'll never know how long it takes, yeah

Why don't you love me baby  
Just like I do  
Just like I do

Let the river flow  
From the mountain high  
You'll never know how long it take  
Let's refill the source  
And the rain will fall  
We'll never know how long it takes, yeah

You will never know, never know  
You will never know  
Just let the river flow
