

Ophelie Winter, Revolution For Love

Here we go, here we go I remember
Martin had a dream ...
Before they took him way from here
He taught us many things
You & I, you & I, loved each other
Way back in the day
"By any means necessary"
Malcom used to say

Well, I hope we get back before too long
Cause love is what keeps us strong

And it's time for the revolution
Revolution 4 love !
Let's put & end to all this confusion
Revolution 4 love !

Here we are you & I livin' free
And doin' what we like
We didn't pave the road to freedom
Didn't pay the price

We should have learned from history
You & I can start
By answering the questions
Straight up from the heart

And we can't forget where we come from
Cause love is what lingers on

Said it's time for the revolution
Revolution 4 love
Let's put & end to all this confusion
Revolution 4 love

Gotta fight for the revolution
A revolution 4 love
It's the one & only solution
Revolution 4 love
