

# opm, Rollin'

We're just rollin' we're just strollin'  
We're just groovin' to the next destination  
No where to go no where to be  
Mr. Riew view mirror, mirror on my car  
Tell me, who be the biggest, of them all  
Well that be you and you be the B  
Yeah lettin' them fools and them sissy's know  
They can't get with me  
I don't need no '64 cause they be played out  
Give me a '59 on them switches baby laid out  
Top down listen to the sound  
What they gonna say when we mash up the town  
Come on girl just a little bit closer  
Remember me from your OPM poster  
I see the stars in your eyes  
Yeah there's a party but we'd rather ride  
So some with us cause you're invited  
Whole nights moon light been provided  
We're just rollin' we're just strollin'  
We're just groovin' to the next destination  
No where to go no where to be  
Just dippin' through the streets of Cali  
We're just rollin' we're just strollin'  
We're just groovin' to the next destination  
No where to go no where to be  
It's just an everyday thing for OPM and me  
I got the side to side yo the front to back  
15's in the trunk to let em know where I'm at  
Some call me fat some call me fatty  
But all know I'm a true baller rollin' in this caddy  
Spinnin' on them true spokes  
About to play big bank take little bank with a pocket full of c notes  
Top down listen to the sound  
What they gonna say when we mash up the town  
Come on girl just a little bit closer  
Remember me from your OPM poster

It's just an everyday thing for OPM and me  
South bound down the 101  
Every day livin' life for fun  
Ride on ride on To the break of dawn  
'Til the sun comes up or the wheels fall off  
Make it bounce make it hop But don't ever stop  
Drop top back in the coupe de'ville  
Headin' for the sign in the hills  
We're just rollin' we're just strollin'  
We're just groovin' to the next destination  
No where to go no where to be
