

# Opshop, Days To Come

All  
All eyes  
Were upon you  
Tonight

And no you dont know me - at all  
But Im so desperate  
To be known

And now, oh it seems all of your lifetimes  
Have led you to standing with me  
So take my coat  
It might be cold outside  
It might be cold outside

[Chorus]  
Whatever youve done  
All those things weve been through  
Let me make it up to you  
Dont be discouraged - weve all been victims  
Whatever broke you down can be outrun  
We can live for these days to come  
To come  
To come  
We can live for these days

All  
Im all ears  
Ive been listenin out for you  
For all of these years

And no, I - I - didnt know what to say  
But youve got to believe me, believe me  
Believe me, I never meant it that way

And all I want to see  
Are the lines on your face from years of lookin at me  
So take my coat  
It might be cold outside  
It might be cold outside

Whatever youve done  
All those things weve been through  
Let me make it up to you  
Dont be discouraged - weve all been victims  
Whatever broke you down can be outrun  
We can live for these days to come  
To come  
To come  
We can live for these days

[Music]

All  
All these fears  
Weve been walkin around on eggshells  
For all of these years

Whatever youve done  
All those things weve been through  
We can live for these days to come  
To come  
To come  
We can live for these days to come

To come  
To come  
We can live for these days  
(Oh, oh, oh, oh, oh, oh)  
Live for these days  
(Oh, oh, oh, oh, oh, oh)

Oh, we can live for these days to come  
To come  
To come  
We can live for these days  
(Oh, oh, oh, oh, oh, oh)  
These days to come  
(Oh, oh, oh, oh, oh, oh)
