

# Optimus Rhyme, Organix

I used to be a human being 'til I totaled the flesh  
Blessed the gun metal grey  
Lay organix to rest  
Less then an actual man  
of hurtin' absurd  
The addition of electrical current  
will close the curtain  
Replace the A negative with 10-30 - weight -  
Synthetic is less filling, tastes great  
My cranial head plate contains gyros and diodes  
Back of my neck, identifying bar code  
Cold steel replaces skin and bone  
Pacific timezone, metallic silver is the skin tone  
My new home is a studio on Cybertron  
My peeps are the Autobeat poets  
Fuck the Whackacons  
I got style that you ain't got  
Take detergent, a gallon of gas and some hip-hop  
Throw in some venomous feelings and pop  
Light a match  
(Wait a minute man, d-don't do that...)  
Just watch!
