

Orange Blue, In Love With A Dream

The time is bleeding
Into eternity
You can't make a long kiss
When you don't breathe
And time is against me
But my mind can't leave
And if you refuse to be in touch with me

Oh please, please let me be
In love with my dream

And I dreamt of flowers
Searching for bees
And sometimes my whiskey was drinking me
I guess that you heard
My heartbeat through the crowd
Telling you I'll be there
As long as you care
If you doubt let yourself be
In love with my dream

And each dusk the moon
Is eating the sun
And each dawn I wonder
Where my dreams have gone
I wish I could be in love with reality

I guess that you heard
My heartbeat through the crowd
Telling you I'll be there
As long as you care
If you doubt let yourself be
In love with my dream

I wish I could be in love with reality
