

Orange Blue, When You Love Someone

No one can say that love divides us
When you're in it deep
There's nothing like it
Miracles come in many sizes
When you're down and out
They always find you

Love fills your life lines
A mid summer's dream

When you love someone
The darkest moments are all go up in smoke
When you love someone
The lights are always all the times turned on
When you're missing somebody
The loneliness you feel
Is love

Open your eyes
It might surprise you
Turn around
It's right beside you
Nothing can stop the voices inside you
From telling the truth
It will never lie to you

Love is the lifeline
That no one can steal

When you love someone
The darkest moments are all go up in smoke
When you love someone
The lights are always all the times turned on
When you're missing somebody
The loneliness you feel
Is love

Forever and always
A partner in every crime
If love is the answer
The questions is on my mind

When you love someone
The door is always open

When you love someone
The darkest moments are all go up in smoke
When you love someone
The lights are always all the times turned on
When you're missing somebody
The loneliness you feel
Is love
