Carry the wings in your heart
Tell my heart's soft whispers
Now, the wind carries them

My heart's wish is beyond the heavens
My heart's wish will be granted
Love's key is the future

A voice is calling softly at the window
And a vision of love appears
Even though it is still far away
Believe in tomorrow
Believe in your feelings

Raspberry heaven!
You won't be alone at Heaven, I promise
Raspberry heaven!
Sweet tears
Smile again at paradise

Raspberry Heaven!
We'll meet again in the gentle dreams of Heaven
Raspberry Heaven, I'm coming back to you
When the flowers of Heaven have bloomed
You and me
Together we'll be

The chasing light
Illuminates a map to happiness
Look, isn't it wonderful?

Now, the light calms me
I'll say goodbye to sad faces
And find the jewel of my heart

"Come close to me" the voice says
The love makes me sway
But I cling to happiness
I'll wait for tomorrow
I'll wait for my feelings

Raspberry heaven!
The waves of happiness are Heaven's
Raspberry heaven!
I'll cast myself to Heaven
Where could I go in this vessel?

Raspberry Heaven!
Hold me tightly in the fun dreams of Heaven
Raspberry heaven, I'm coming back to you
When paradise's flowers have beautifully bloomed
You and me
Together we'll be
