Oratory, Fight For The Light

I'm sited on star, full of light and magic From here i can see the earth I'm sited on a star, it looks so small and feeble Like a litle child at his birth When we look at the sky we see the stars Shining upon the horizon

[chorus]

Fight for the light Fight for the bright day Fight for the glorious light

I'm sited on a star, among all planets Above you I see a dark shade I'm sited on star, I pray and hope That your light will never fade When we look at the sky WE see stars Shining upon the horizon

[chorus]
