

# Orgy, Just Like I Remember

I never meant to make you feel stupid  
But sometimes I've got to say what's on my mind  
So stay the f\*\*k away from me  
You're no friend of mine  
And there's no disguise  
For that crooked look in your eyes

It's just like I remember  
I think you made a big mistake, always shutting me down  
It's just like I remember

Now you never should have focused my frustration  
On all your sickness and pain  
You've got me possessed  
So stay the f\*\*k away from me  
You're no friend of mine  
Taking out your bullshit  
Out on everyone around you  
That's why you're living lonely  
Yeah

It's just like I remember  
I think you made a big mistake, always shutting me down  
It's just like I remember
