

Orion Sun, pressure

Low
Got me running on E
All this pressure on me
Got me wishing i was six feet deep In the yard
Somebody checking for me
In the streets
Whippin 'round california
In the car
Windows down
Top down
I know you feel me now
I know you feel me now

I'll go
Faster
Than them demons chasing after
Our art
Our laughter
I said "baby, what happened?"
Now we overreacting
Last one
Jump in
Be the captain

Patience
Build my house out of brick
Evenings
In the lot learning stick
I never got it down no it never made sense Fast forward
Ended up with it
Automatic
I need to let it go
Let it go
Let it go let it go
