

Orquesta Del Desierto, Sleeping The Dream

It's quiet now
This world's a delight
Like a victim in chains
You've been waiting for days
To say, "Come on home child
This world's a delight
This world's a delight"
Like the simplest things
Your smile it sings, and says
"Come on home child"

All the while you were
All the while you were
All the while you were
Sleeping the dream

It's quiet here
While the rest of the world is alive
We're all victims in chains
Waiting for days to say
"Come on home child
This world's delight
This world's a delight"
With it's simplest things
And the gifts that it brings that say
"Come on home child"

All the while you were
All the while you were
All the while you were
Sleeping away in a dream
