

Orson, Little Miss Lost And Found

Little miss lost and found
She's driving all around this town
She won't go home
She won't go home

Listening to Biggie Smalls
And now she's screening all her calls
She won't go home
She won't go home

The situation wasn't part of the plan
She's positive they won't understand
She ain't gone crazy
Things just got out of hand
Running red light just as fast as she can

Baby, why you looking so broken hearted?
Baby, why you scared to finish what you started
Running so fast, don't know what you're after
Slow yourself down and you'll get there faster

Baby, don't you know that you're so much smarter?
Baby, you just gotta try a little harder
Girl, when you shine you're so much brighter
Than anything anywhere else in the whole wide world

Little miss lost and found
She's driving all around this town
She won't go home
She won't go home

It ain't so bad, she's only up to her knees
She won't pull over, won't hand over the keys
She ain't no Thelma, sure as hell ain't no Louise
Just trying to make it through the night in one piece

Baby, why you looking so broken hearted?
Baby, why you scared to finish what you started
Running so fast, don't know what you're after
Slow yourself down and you'll get there faster

Baby, don't you know that you're so much smarter?
Baby, you just gotta try a little harder
Girl, when you shine you're so much brighter
Than anything anywhere else in the whole wide world

We don't have to talk about it
So don't be afraid
It really doesn't matter just how long you've been lost
Girl, it's never too late to be found

Baby, why you looking so broken hearted?
Baby, why you scared to finish what you started
Running so fast, don't know what you're after
Slow yourself down and you'll get there faster

Baby, don't you know that you're so much smarter?
Baby, you just gotta try a little harder
Girl, when you shine you're so much brighter
Than anything anywhere else in the whole wide world
