

# Osmonds, I'm Still Gonna Need You

Girl you say you wanna leave me,  
You wanna go your merry way  
You no longer want, the love we used to share,  
Why do you treat me this way

I'm still, Gonna, Need you  
For- ever more  
(repeat once)

How well I'll ever remember,  
That cold and dreadful night  
When you told me that you loved me girl  
and walked right outa my life  
Oh where and when did I go wrong  
Somebody let me know  
I love you more than life itself  
Oh how can i let you go

I'm still, Gonna, Need You  
for - ever more  
(repeat 3 times))

So many times I've thought about,  
you and yesterday  
The things we did the hopes we had  
The friends we used to make  
There is cool reflection that we did and say (?)  
But they're gone gone gone gone  
I hope that they start to stay (?)

I'm still, Gonna, need you  
For- ever more (repeat to fade)
