

Our Lady Peace, Hello Oskar

Over there well he's wondering
Is Oskar there?

Is Oskar all right?
Was never cool not allowed to fit
He never knew what he liked

And over there he's the rubberman
A rubber dress with Betty Page eyes
Was never cool he'll never settle down
He's not allowed to drive

He'll build a bridge then walk around
Don't ever call him dumb
He's not that bright

He's not that bright

And he's not him

He's not him

I will take you somewhere
Somewhere to unwind
You're tangled up in all this shit
And I will make you mine

And I will make you mine

There's nothing wrong, he's a superstar

A taximan and a young Eisenstein

Was never cool he'll never settle down
He's not allowed to drive

He'll build a bridge then walk around
Leave that boy alone
He's not that bright

He's not uptight

And he's just not him

Not himself

And I will take you somewhere
Somewhere to unwind
You're tangled up in all this shit
But I will make you mine

And I will make you mine

I will take you

I will take you

I will take you

I will take you

I will take you

I will take you

I will take you

I will take you

And I can take you somewhere

Somewhere to unwind

You're tangled up in all this shit
And I will make you mine

But I will make you mine

And I will make you mine

Make you mine, mine, mine

Will make you mine, mine, mine

Will make you

But I can take you somewhere over

Mine, mine, mine, mine, mine, mine, mine, mine, mine, mine

Make
