

Our Lady Peace, Home

Unreleased rarity played on Naveed Tour

Way back, and if you find out again
I'll never leave you home
If I could well I'd be there breathing in
What you need is home
Noooo! I meant when it counted all to play
I don't care
But I can see
That underneath
Your building right in front of me, I
Might - take - you - home
But if I could, well I'll know you're not afraid
Of what you hear in the tone
If you heard of the church not following,
That I'll never take you home
Noooo! I will, while you're calling out to me
But I don't fly
But what I can see
Could help be
You'll build it up, you'll fall in free, I
Might - take - you - home
But if you could, why I know you're not alone
But if what you need is home
But if I could well I'd be there for yet again
I'll never take you home
Noooo! I left you with calling out to me
But I don't see
But I can't breathe
Lower than
Your building right in front of me, I
Might - take - you - home
