

# Our Lady Peace, Innocent

Oh, Johnny wishes he was famous  
Spends his time alone  
In the basement  
With Lennon and Cobain  
A guitar and a stereo  
While he wishes he  
Could escape this  
It all seems so contagious  
Not to be yourself and faceless  
In a song that has no soul

[Chorus:]

I remember feeling low  
I remember losing hope  
I remember all the feelings  
And the day they stopped  
We are,  
We are all innocent, we are all innocent  
We are, we are, we are  
We are all innocent, we are all innocent  
We are, we are

Oh, Tinas losing faith in what she knows  
Hates her music  
Hates all of her clothes  
Thinks of surgery  
And a new nose  
Every calorie is a war  
While she wishes she  
Was a dancer  
And that she'd never  
Heard of cancer  
She wishes God would give her  
Some answers  
And make her feel beautiful

[Chorus]

One day  
You'll have to let it go,  
Oh  
One day  
You'll stand up on your own, you'll stand up on your own  
Yeah  
Remember losing hope,  
Remember feeling low,  
Remember all the feelings and the day they stopped

We are,  
We are all innocent, we are all innocent  
We are, we are, we are,  
We are all innocent, we are all innocent  
We are, we are

We are,  
We are all innocent  
(One day, you'll have to let it go, you'll have to let it go)  
We are all innocent  
We are, we are, we are,  
We are all innocent, we are all innocent  
We are, we are

We are,  
We are all innocent

(One day, you'll stand up on your own, stand up on your own)  
We are all innocent  
We are, we are, we are,  
We are all innocent, we are all innocent  
We are, we are

We are... we are all innocent...
