

# Our Lady Peace, My Julia

here i am sitting in my room alone  
i lay on my bed sitting by the phone  
waiting for the one,  
that special one to call,  
but she's out partying leaving me by myself,  
i think i'm obsessed, maybe i need some help,  
or maybe....

i've just found that special some one  
julia out dancing around  
with the stereo up blasting the sound  
she's so hot

and i like her alot  
but she will never know  
no she will never know  
we dance and laugh in her room  
hangin out all afternoon  
but she will never know  
just how i feel

i go by her house and see if she's home  
she's out with her friends, i'm still all alone  
she's so perfect

i can't even explain  
i want her so much, tho she causes this pain  
why am i so bad at this love game?  
just maybe....

could i be her someone too  
julia out dancing around  
with the stereo up blasting the sound  
she's so hot

and i like her alot  
but she will never know  
no she will never know  
we dance and laugh in her room

but she will never know  
just how i feel
