

# Our Lady Peace, Somewhere Out There- Revisio

Last time I talked to you  
You were lonely and out of place  
You were looking down on me  
Lost out in space  
we laid underneath the stars  
Strung out and feeling brave  
I Watched the red orange glow  
I watched you float away  
Down here in the atmosphere  
Garbage and city lights  
you've gone to save youre tired soul  
Youve gone to save our lives  
I Turned on the radio to  
Find you on satellite  
Im waiting for the sky to fall  
Im waiting for a sign  
And all we are  
Is all so far  
Youre falling back to me  
The star that I can see  
I know youre out there somewhere out there  
Youre falling out of reach  
Defying gravity  
I know youre out there  
Somewhere out there  
Hope you remember me  
When youre homesick and need a change  
I miss youre purple hair  
I miss the way you taste  
I know youll come back some day  
On a bed of nails I wait  
Im praying that you dont burn out  
Or fade away  
And all we are  
Is all so far  
Youre falling back to me  
The star that I can see  
I know youre out there somewhere out there  
Youre falling out of reach  
Defying gravity  
I know youre out there  
Somewhere out there  
Youre falling back to me  
The star that I can see  
I know youre out there oooh  
Youre falling out of reach  
Defying gravity  
I know youre out there  
Somewhere out there  
Youre falling back to me  
The star that I can see  
I know youre out there somewhere out there  
Youre falling out of reach  
Defying gravity  
I know youre out there  
Somewhere out there  
Youre falling back to me  
I know, I know  
Youre falling out of reach  
I know
