

Our Lady Peace, Will the future blame us

Ooh hoo
Ooh hoo
Are you dissapointed?
And have we destroyed it I
But I've been stomping down this long and winding road
And these times are changin
And it's complicated I
I don't wanna know
And I
Don't ask why anymore
And I
Don't ask why anymore, anymore
Ooh hoo
Ooh hoo
And is it getting better?
And can we live forever I
And I'm not sure what the hell we're fighting for
And does the money make us?
And will the future blame us I
I don't wanna know
And I
Don't ask why anymore
And I
Don't ask why anymore, anymore
When you're tired and alone
And you feel like letting go
Come home
When you can't take anymore
When you're beat up and ignored
Come home
The sun inside the hall
The faster you don't know
A long, long way from home
The things you need to know
The answers leave you cold
You're a long, long way from home
And the summers coming back
It brings a second chance
If you're not part of this
Then I don't wanna know!
Ooh hoo
Ooh hoo
And I
Don't ask why anymore
And I
Don't ask why anymore
When you're tired and alone
And you feel like letting go
Come home
When you can't take anymore
When you're beat up and ignored
Come home
I'm coming home
