

# Out Of The Grey, Better Way To Fall

He put so much stock in the market  
His basket crashed and broke  
So he took a train to get away from it all  
But some bridges just don't hold

She puts her faith in the future  
In the spring the grass grows green  
But she tripped and fell when it rained  
And now the stains won't come clean

Oh there must be a guarantee  
When we're all walking ten feet tall  
Oh I know there's got to be  
A better way to fall

They drove each other crazy  
On their way to the top  
And they reached the peak so quickly  
They didn't see the drop  
(and they couldn't stop)

Oh there must be a guarantee  
When we're all walking ten feet tall  
Oh I know there's got to be  
A better way to fall  
A better way to fall

I'm falling on my knees  
I'm calling help me, please

I walked with you to the altar  
I said I'd sacrifice myself  
But I lost my strength in the ring  
And took you with me when I fell

Oh there must be a guarantee  
When we're all walking ten feet tall  
Oh I know there's got to be  
A better way to fall  
Oh I know there's a guarantee  
When we're all walking ten feet tall  
Oh I know there's got to be

A better way to fall  
A better way to fall  
I'm falling on my knees
