

# Outlawz, Our Life

[Napoleon: talking]

Outlawz... could never touch the kids in the ghetto man  
That's where I'm from..... man

[Chorus]

This is our life  
Even tho' the sun dont always shine  
It's still our life  
If you keep yo head up everything will be alright  
In living your life

[Napoleon]

I'm damn near 'bout to go in tears  
Writin' this verse here  
I feel like I'm cursed here  
I'm choked up since I lost my peers  
But I know one day we be back again  
One love to my Mexicans  
Tryin' to run across the border  
To see freedom all over again  
Man... One love to my Africans  
They try to kill us with AIDS  
But they smart again  
It's like I die once that I be born again  
With the grace of Allah  
Kept away my sins  
From the ghetto where they play with heavy metal to win  
Lost my parents so I moved with my next-of-kin  
Life.... just so mych pain to me  
To tell the truth I dont wanna die angrily  
Makaveli and Kadafi, them trained me  
I feel yall in the dark steady hatin' me

[Chorus]

This is our life  
Even tho' the sun dont always shine  
It's still our life  
If you keep yo head up everything will be alright  
In living your life

[Edi]

In '96 we was on top of the world  
Videos, movies, money, jewels and girls  
Rolls Royces, Hummers, Jagz and all that  
Hard to believe one night in Vegas changed all that  
Fast forward... 6 years  
Man, we still here  
Despite be hated on (huh)  
We still clear  
Until the end of time you cant stop destiny  
Back for everything they owe  
Now let's go

[Young Noble]

I got the spirit of a angel  
The heart of a soldier  
The mind of a militant  
Was blessed by my mother  
The inspiration of my life  
She 4 years clean  
With 15 years on the pipe  
And she just got married  
I felt pain... ya sayin' Pac smilin' at the wedding  
Never forget her mah'

Yall baby fool, I promise to ya Imma stay a trooper  
Outlawz done die  
We forever move

[Chorus]  
This is our life  
Even tho' the sun dont always shine  
It's still our life  
If you keep yo head up everything will be alright  
In living your life

[Kastro]  
Oh... I'm on, pens and needles  
Needles and pens  
These 2 Tims was my Beemer  
Before I heard of a Benz  
I got lost tryin' to find my ends  
And got crossed tryin' to find me a friend  
That's life....  
We sacrifice for better days  
We pray for a better way that never came  
Hey! (hey.. hey)  
What's more precious then a innocent child, smilin'  
??? was foul, look at his smile  
School's not cool  
Them big body rules  
The workin' mans a fool  
If he cant afford the jewels  
Look at how life use ya  
Abuse and confuse ya  
Remember we was suppose to be the future?  
Now we grown  
The future is here and we gone  
Oh where did we go wrong  
Let's live...  
And do right by these kids my friend  
They the only shot we got at living life again  
C'mon

[Chorus x2]  
This is our life  
Even tho' the sun dont always shine  
It's still our life  
If you keep yo head up everything will be alright  
In living your life
