

Oval Opus, Save Me

I see you there on the other side
I'm so afraid to leave this all behind
Save me from me
I've been away for way to long
It's time for me to make my way back home
Save me from me

Reflections in the mirror
Of a man I once knew.
Thoughts become clearer
Of what I should do

I see you there on the other side
I'm so afraid to leave this all behind
Save me from me
I've been away for way to long
It's time for me to make my way back home
Save me from me

Well I'm trying to change
One day at a time
I've been bound by these chains,
Confusing my mind

Am I caught in a dream?
Is this as real as it seems?

I see you there on the other side
I'm so afraid to leave this all behind
Save me from me
I've been away for way to long
It's time for me to make my way back home
Save me from me

These days seem like years
Am I running out of time?
Am I wasting my breath?
Will this crazy life of mine, every be mine?

I see you there on the other side
I'm so afraid to leave this all behind
Save me from me
I've been away for way to long
It's time for me to make my way back home
Save me from me

I see you there on the other side
I'm so afraid to leave this all behind
Save me from me
I've been away for way to long
It's time for me to make my way back home
Save me from me
