

Oval Opus, Settle Down

Thinking back to the day,
When I just knew there was something going on.
Inside, outside,
There was a shadow of doubt.
If it's a matter of devotion,
Then I think we'll make it through,
To give it up.
Giving up is not an option.
Instead I'll do it better.
I know it drives you crazy,
But give me a chance
To ask you maybe...

Do you ever want to settle down?
Cause I wanna get there,
Ain't running nowhere.
You know this changes everything.
Do you ever want to settle down?
Don't be scared.
Just trying to breath here.
To be there, for you,
It's all that I can do.

We all talk about commitment,
And how it's supposed to work,
And how we're going to deal with this,
Upside, downside.
Takes time to figure it out.
If I could answer all these questions,
Would it make it real for you?
I'll give it up.
So give it up, bittersweet affection,
So I can do you better.
I know it drives you crazy,
But give me a chance to ask you maybe...

Do you ever want to settle down?
Cause I wanna get there,
Ain't running nowhere,
You know this changes everything.
Do you ever want to settle down?
Don't be scared, just trying to breath here,
To be there, for you.
It's all that I can do.

It's all inside,
Just need a little more time,
That's all I need.

Do you ever want to settle down?
Cause I, I wanna get there,
Ain't running nowhere,
You know this changes everything.
Do you ever want to settle down?
Don't be scared,
Just trying to breath here,
To be there, for you.

Do you ever want to settle down?
Cause I wanna get there,
Ain't running nowhere,
You know this changes everything.
Do you ever want to settle down?
Don't be scared, just trying to breath here,

To be there, for you.
It's all that I can do.
It's all that I can do.
