

# Oval Opus, Wonder

I kind of wonder,  
Every now and then.  
What you were doing,  
And how have you been?  
It's been so long,  
Oh so long.  
I kind of wonder,  
Just where we went wrong?

I've almost forgotten,  
Your body next to mine.  
And the warmth of your love,  
Is frozen in time.  
It's been so long,  
Oh so long.  
I kind of wonder,  
Just where we went wrong.

I don't know why,  
My foolish pride,  
Wouldn't let you come and tell me,  
How I felt inside.

I kind of wonder,  
If you still care  
If there's a place,  
In your heart for me there  
It's been so long,  
Oh so long.  
I kind of wonder,  
Just where we went wrong

You are my lady.  
But I was your man.  
But you just couldn't take me,  
The way that I am.

I kind of wonder,  
If I saw you today,  
Would we feel like strangers?  
Would we know what to say?

It's been so long,  
Oh so long.  
I kind of wonder,  
If all feelings gone?  
I kind of wonder.  
I kind of wonder.
