

Over The Rhine, I Radio Heaven

I Radio Heaven

words and music: Linford Detweiler

recording: Films For Radio

i radio heaven
i get mixed signals
i move the antenna
i switch the channels
i lie in this bed
my satellite dish
is there room in the universe
for one last wish
(i say)

do you read me
over
you wanna come
over

i guess i never told you
'bout this life i'm livin'
it's heaven versus hell
in a split decision
this secret religion is
the best that i've found
i radio heaven
when no one's around
(i say)
do you need me
over
you wanna come
over

this song is grinning
go on and undress it
it's just the beginning
go on and possess it
you're no longer a child now
don't let them molest it
the wound is deep
i'm just trying to confess it

the truth is i bleed you
when these frequencies cut me
i'm a slut with a mission
a singular vision
i radio heaven
i get mixed signals
i move the antenna
i switch the channels

i radio heaven
i get mixed signals
i move the antenna
i switch the channels
i lie in this bed
my satellite dish
is there room in the universe
for one last wish
