

Over The Rhine, When You Say Love

I'm thinking of a word that has been
Knocked up and overused
You could say it's lost all meaning
From so much abuse

But when you say love, OH

Most everything I ever wanted
Doesn't really have a name
But baby you're as close as I've come and
I know that it sounds strange

But when you say love, OH

So open up my heart-shaped box
It's full of combination locks
I've swallowed all my love-sick pills
To keep from getting chills
Look at all the books I've read
In my lonely single bed

But when you say love, OH
