

Overdream, First Step

Wonder and raise up your head
Set your eyes far on the sky
Hold your breath, fold tight your hands
Let your dreams with us to fly

Blue Globe
My home
Now a faint memory
Will we
See again
Sunbeams play in the sea

One step ahead
Will move each man
One step away
A new era wakes

Send your hopes out in the night
Through the cold, the endless miles
Stars around watch as we float
Stay with us, lead our way home
