

# Overdream, First Step

Wonder and raise up your head  
Set your eyes far on the sky  
Hold your breath, fold tight your hands  
Let your dreams with us to fly

Blue Globe  
My home  
Now a faint memory  
Will we  
See again  
Sunbeams play in the sea

One step ahead  
Will move each man  
One step away  
A new era wakes

Send your hopes out in the night  
Through the cold, the endless miles  
Stars around watch as we float  
Stay with us, lead our way home
