

Overdream, Guarding Eye

[Child:]

Say, are you there, watching me as I sleep?
Say, are you there, guarding silence and peace?

[Angel:]

I am here, watching you, keeping you safe
I will stay all the way as the years fade

[Child:]

I saw a world where the sun never set
People were free and they smiled and they cared

[Angel:]

Come with me, take my hand, follow my steps
Now a dream - make it real, show that you dare

Fly on the wings of your mind, may you reach for the sky
Dream and believe, never leave off your wish, little child

[Child:]

Will you be there when the shades gather round?
Will you be there when they freeze in my heart?

[Angel:]

I'll be there by your side, holding you warm
I'll be there, humming this tune in your soul

[Child:]

I know a world, though it's far from the Earth
How can I share it's beauty with others?

[Angel:]

Sing and play, trust in the music you feel
Tell them all, that's the way to make it real

Fly on the wings of your mind, may you reach for the sky
Dream and believe, never leave off your wish, little child
